

Table 1. Profile of the State Population by Diagnosis

This table summarizes the estimates of adults residing within the State with serious mental illness (SMI) and children residing within the state with serious emotional disturbances (SED). The table calls for estimates for two time periods, one for the report year and one for three years into the future. CMHS will provide this data to States based on the standardized methodology developed and published in the Federal Register and the State level estimates for both adults with SMI and children with SED.

Table 1.		
Report Year:	2004	
State Identifier:	NE	
	Current Report Year	Three Years Forward
Adults with Serious Mental Illness (SMI)	70,116	
Children with Serious Emotional Disturbances (SED)	22,735	

Note: This Table will be completed for the States by CMHS.

Source: COMMUNITY MENTAL HEALTH SERVICES BLOCK GRANT APPLICATION GUIDANCE
AND INSTRUCTIONS FY 2005 - 2007

Children with Serious Emotional Disturbances (SED) means

Pursuant to section 1912(c) of the Public Health Service Act "children with a serious emotional disturbance" are persons: (1) from birth up to age 18 and (2) who currently have, or at any time during the last year had, a diagnosable mental, behavioral, or emotional disorder of sufficient duration to meet diagnostic criteria specified within DSM-III-R. Federal Register Volume 58 No. 96 published Thursday May 20, 1993 pages 29422 through 29425.

Adults with Serious Mental Illness (SMI)

Pursuant to section 1912(c) of the Public Health Service Act, adults with serious mental illness SMI are persons: (1) age 18 and over and (2) who currently have, or at any time during the past year had, a diagnosable mental behavioral or emotional disorder of sufficient duration to meet diagnostic criteria specified within DSM-IV or their ICD-9-CM equivalent (and subsequent revisions) with the exception of DSM-IV "V" codes, substance use disorders, and developmental disorders, which are excluded, unless they co-occur with another diagnosable serious mental illness. (3) That has resulted in functional impairment, which substantially interferes with or limits one or more major life activities. Federal Register Volume 58 No. 96 published Thursday May 20, 1993 pages 29422 through 29425.

NOTE: ADULT means the number of Persons in Civilian Population with Serious Mental Illness (SMI), age 18 and older as of 2000. SMI uses an estimate of 5.4% of adult civilian population age 18+. Civilian population excludes military personnel residing in the geographic area. Rationale is that these personnel are served by the Military or health insurance coverage provided by the military.

Table 2A. Profile of Persons Served, All Programs by Age, Gender and Race/Ethnicity

This table provides an aggregate profile of persons in the reporting year. The reporting year should be the latest state fiscal year for which data are available. This profile is based on a client receiving services in programs provided or funded by the state mental health agency. The client profile takes into account all institutional and community services for all such programs. Please provide unduplicated counts if possible.

Please enter the "total" in the appropriate row and column and report the data under the categories listed.

Table 4. Profile of Adult Clients by Employment Status

This table describes the status of adult clients served in the report year by the public mental health system in terms of employment status. The focus is on employment for the working age population, recognizing, however, that there are clients who are disabled, retired or who are homemakers, care-givers, etc and not a part of the workforce. These persons will be reporting in the "Not in Labor Force" category. This category has two subcategories: retired and other. (The totals of these two categories should equal the number in the row for "Not in Labor Force".) Unemployed refers to persons who are looking for work but have not found employment. Data should be reported for clients in non-institutional settings at time of discharge or last evaluation.

Table 5A. Profile of Clients by Type of Funding Support

This table provides a summary of clients by Medicaid coverage. Since the focus of the reporting is on clients of the public mental health service delivery system, this table focuses on the clientele serviced by public programs that are funded or operated by the State Mental Health Authority. Persons are to be counted in the Medicaid row if they received a service reimbursable through Medicaid.

Please note that the same person may be served in both Medicaid and Non-Medicaid programs during the same reporting period.

Table 5A																
Report Year:	2004															
State Identifier:	NE															
	Total				American Indian or Alaska Native			Asian			Black or African American			Native Hawaiian or Other Pacific Islander		
	Female	Male	Not Available	Total	Female	Male	Not Available	Female	Male	Not Available	Female	Male	Not Available	Female	Male	Not Available
Medicaid (only Medicaid)	928	1,046	0	1,974	35	29		6	11		54	52

Data based on Medicaid Paid Services: Y/ N

Data Based on Medicaid Eligibility, not Medicaid Paid Services:Y/N

Data are Duplicated Y/N

Comments on Data: For Table 5A. Profile of Clients by Type of Funding Support

- Used the same data from Table 2A.

- Medicaid Only - Used only those services labeled as "Medicaid Rehab Option"

- Non- Medicaid Only - Used only those services NOT labeled as "Medicaid Rehab Option"

- Both Medicaid & Non Medicaid - Used for consumers in more than one service and the person has at least one MRO service and one non-MRO service

- Medicaid Status Not Available - There should be no consumers in this row.

New Rows are used for those people who can report Medicaid unduplicated. Each row would have a unique (unduplicated) count of clients: (1) Medicaid Only, (2) Non-Medicaid Only, (3) Both Medicaid and Other Sources funded their treatment, and (4) Medicaid Status Not Available)

If a state is unable to unduplicate between People whose care is paid by Medicaid, then they would report all data into the People Served by Both Medicaid and Other Sources and would check the box, People Served by Both is a duplicated count

White			Hispanic * use only if data for Table 5b are not available.			More Than One Race Reported			Race Not Available

Other				

** Other 24 Hour Care: is "residential care" from both state hospitals and community ("Ambulatory/Community"). Thus, "Other 24 Hour Care" expenditures are also included in the state hospital and/or "Ambulatory/Community" Columns as applicable.*

Comments on Data:

Note: The data in this table are derived from the National Association of State Mental Health Program Directors Research Institute, Inc's State Mental Health Agency-Controlled Revenues and Expenditures Study. FY'2002 Data for this table is currently being compiled by the NRI.

Table 8. Profile of Community Mental Health Block Grant Expenditures For Non-Direct Service Activities

This table is used to describe the use of CMHS BG funds for non-direct service activities that are sponsored, or conducted by the State Mental Health Authority

Table 8	
Report Year:	2004
State Identifier:	NE
Profile of Community Mental Health Block Grant Expenditures for Non-Direct Service Activities	
Service	Estimated Total Block Grant
MHA Technical Assistance Activities	
MHA Planning Council Activities	
MHA Administration	
MHA Data Collection/Reporting	
MHA Activities Other Than Those Above	\$105,299
Total Non-Direct Services	\$105,299

Comments on Data:

In Nebraska, the \$105,299 is the total State Administration (5%) authorized for use under the \$2,105,983 received from the Federal Community Mental Health Services Block Grant. This is as discussed within the Nebraska Community Mental Health Services Block Grant FY2004 / Implementation Report (see ADULT GOAL #3: EMPOWER CONSUMERS) and the Nebraska 2005 Community Mental Health Services Block Grant Application (August 27, 2004) under ADULT GOAL #2: EMPOWER CONSUMERS. These funds are used to help fund two full-time Consumer Liaisons positions who work as change agents and advocates as staff members within the Nebraska Department of Health and Human Services. These funds also help to financially support the Annual Consumer Conference. This year the Annual Consumer Conference was held on September 28-30, 2004 and 110 people attended.

Table 9. Public Mental Health System Service Inventory Checklist

This table is used to provide an overview of the range of services currently operated or funded by the State mental health agency. Indicate by a checkmark (X) the extent to which the services listed below are available in the State.

Comments on Data:

Adult Consumer Surveys

1. Was the Official 28 Item MHSIP Adult Outpatient Consumer Survey Used? ☒ Yes ☐ No

1.a. If no, which version:

- 1. Original 40 Item Version ☐ Yes
- 2. 21-Item Version ☐ Yes
- 3. State Variation of MHSIP ☐ Yes
- 4. Other Consumer Survey ☐ Yes

1.b. If other, please attach instrument used.

1.c. Did you use any translations of the MHSIP into another language? ☐ 1. Spanish

2. Other Language:

Adult Survey Approach:

2. Populations covered in survey? (Note all surveys should cover all regions of state) ☐ 1. All Consumers in State ☒ 2. Sample of MH Consumers

2.a. If a sample was used, what sample methodology was used? ☒ 1. Random Sample ☐ 2. Stratified Sample ☐ 3. Convenience Sample

4. Other Sample:

2.b Do you survey only people currently in services, or do you also Survey Persons no longer in service?

- ☒ 1. Persons Currently Receiving Services
☒ 2. Persons No Longer Receiving Services

3. Please Describe the populations included in your sample: (e.g., all adults, only adults with SMI, etc.)

- ☒ 1. All Adult consumers in state
☐ 2. Adults with Serious Mental Illness
☐ 3. Adults who were Medicaid Eligible or in Medicaid Managed Care

3.4 Other: describe: (for example, if you survey anyone served in the last 3 months, describe that here):

4. Methodology of collecting data? (Check all that apply)

	Self-Administered	Interview
Phone	<input type="checkbox"/> Yes <input type="checkbox"/> Yes	<input type="checkbox"/> Yes
Mail	Yes	
Face-to-face		<input type="checkbox"/> Yes
Web-Based	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes

4.b. Who administered the Survey? (Check all that apply)

- ☒ 1. MH Consumers
☐ 2. Family Members
☐ 3. Professional Interviewers
☐ 4. MH Clinicians
☐ 5. Non Direct Treatment Staff

6. Other: describe:

5. Are Responses Anonymous, Confidential and/or Linked to other Patient Databases?

- ☒ 1. Responses are Anonymous
☒ 2. Responses are Confidential
☐ 3. Responses are Matched to Client databases

6. Sample Size and Response Rate

6a. How many Surveys were Attempted (sent out or calls initiated)?

4,412

6.b How many survey Contacts were made? (surveys to valid phone numbers or addresses)

3,760

6.c How many surveys were completed? (survey forms returned or calls completed)

657

6.d. What was your response rate? (number of Completed surveys divided by number of Contacts)

17%

6.e. If you receive "blank" surveys back from consumers (surveys with no responses on them), did you count these survey's as "completed" for the calculation of response rates?

☐ Yes ☒ No

7. Who Conducted the Survey

7.a. SMHA Conducted or contracted for the Survey (survey done at state level)

☒ Yes ☐ No

7.b. Local Mental Health Providers/County mental health providers conducted or contracted for the survey
(survey was done at the local or regional level)

☐ Yes ☒ No

7.c. Other: Describe:

* Report Confidence Intervals at the 95% confidence level

Note: The confidence interval is the plus-or-minus figure usually reported in newspaper or television opinion poll results. For example, if you use a confidence interval of 4 and 47% percent of your sample picks an answer you can be "sure" that if you had asked the question of the entire relevant population between 43% (47-4) and 51% (47+4) would have picked that answer.

The confidence level tells you how sure you can be. It is expressed as a percentage and represents how often the true percentage of the population who would pick an answer lies within the confidence interval. The 95% confidence level means you can be 95% certain; the 99% confidence level means you can be 99% certain. Most researchers use the 95% confidence level.

When you put the confidence level and the confidence interval together, you can say that you are 95% sure that the true percentage of the population is between 43% and 51%. (From www.surveysystem.com)

Child/Family Consumer Surveys

1. Was the MHSIP Children/Family Survey (YSS-F) Used?

☒ Yes ☐ No

If no, please attach instrument used.

1.c. Did you use any translations of the Child MHSIP into another language? ☐ 1. Spanish

2. Other Language:

Child Survey Approach:

2. Populations covered in survey? (Note all surveys should cover all regions of state) ☐ 1. All Consumers in State
☐ 2. Sample of MH Consumers

2.a. If a sample was used, what sample methodology was used? ☒ 1. Random Sample ☐ 2. Stratified Sample
☐ 3. Convenience Sample

4. Other Sample:

2.b Do you survey only people currently in services, or do you also Survey Persons no longer in service?

- ☒ 1. Persons Currently Receiving Services
☒ 2. Persons No Longer Receiving Services

2a. If yes to 2, please describe how your survey persons no longer receiving services.

3. Please Describe the populations included in your sample: (e.g., all children, only children with SED, etc.)

- ☒ 1. All Child consumers in state
☐ 2. Children with Serious Emotional Disturbances
☐ 3. Children who were Medicaid Eligible or in Medicaid Managed Care

3.4 Other: describe: (for example, if you survey anyone served in the last 3 months, describe that here):

4. Methodology of collecting data? (Check all that apply)

	Self-Administered	Interview
Phone	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
Mail	<input checked="" type="checkbox"/> Yes	
Face-to-face		<input type="checkbox"/> Yes
Web-based	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes

4.b. Who administered the Survey? (Check all that apply)

- ☐ 1. MH Consumers
☒ 2. Family Members
☐ 3. Professional Interviewers
☐ 4. MH Clinicians
☐ 5. Non Direct Treatment Staff

6. Other: describe:

5. Are Responses Anonymous, Confidential and/or Linked to other Patient Databases?

- ☒ 1. Responses are Anonymous
☒ 2. Responses are Confidential
☐ 3. Responses are Matched to Client databases

6. Sample Size and Response Rate

6a. How many Surveys were Attempted (sent out or calls initiated)?

592

6.b How many survey Contacts were made? (surveys to valid phone numbers or addresses)

541

6.c How many surveys were completed? (survey forms returned or calls completed)

67

6.d. What was your response rate? (number of Completed surveys divided by number of Contacts)

12%

6.e. If you receive "blank" surveys back from consumers (surveys with no responses on them), did you count these survey's as "completed" for the calculation of response rates?

☐ Yes ☒ No

7. Who Conducted the Survey

7.a. SMHA Conducted or contracted for the Survey (survey done at state level)

☒ Yes ☐ No

7.b. Local Mental Health Providers/County mental health providers conducted or contracted for the survey (survey was done at the local or regional level)

☐ Yes ☐ No

Table 12: State Mental Health Agency Profile

The purpose of this profile is to obtain information that provides a context for the data provided in the tables. This profile covers the populations served, services for which the state mental health agency is responsible, data reporting capacities, especially related to duplication of numbers served as well as certain summary administrative information.

Table 12	
Report Year:	2004
State Identifier:	NE

Populations Served

- 1 Which of the following populations receive services operated or funded by the state mental health agency? Please indicate if they are included in the data provided in the tables. (Check all that apply.)**

	Populations Covered		Included in Data	
	State Hospitals	Community Programs	State Hospitals	Community Programs
1. Aged 0 to 3	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes
2. Aged 4 to 17	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes
3. Adults Aged 18 and over	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes
4. Forensics	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> Yes
Comments on Data:				

- 2 Do all of the adults and children served through the state mental health agency meet the Federal definitions of serious mental illness and serious emotional disturbances?**

NO ☐ Serious Mental Illness
 NO ☐ Serious Emotional Disturbances

- 2.a. If no, please indicate the percentage of persons served for the reporting period who met the federal definitions of serious mental illness and serious emotional disturbance?

2.a.1 Percent of adults meeting Federal definition of SMI:	41.0%
2.a.2 Percentage of children/adolescents meeting Federal definition of SED	15.4%

3 Co-Occurring Mental Health and Substance Abuse:

- 3.a. What percentage of persons served by the SMHA for the reporting period have a dual diagnosis of mental illness and substance abuse?
- 3.a.1 Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem: 24.4%
- 3.a.2. Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem: 7.1%
- 3.b. What percentage of persons served for the reporting period who met the Federal definitions of adults with SMI and children/adolescents with SED have a dual diagnosis of mental illness and substance abuse.
- 3.b.1 Percentage of adults meeting Federal definition of SMI who also have a diagnosis of substance abuse problem: 43.4%
- 3.b.2. Percentage of children/adolescents meeting the Federal definition of SED who also have a diagnosis of substance abuse problem: not available
- 3b.3 Please describe how you calculate and count the number of persons with co-occurring disorders

In general, the data are collected at admission and discharge. The report is based on diagnosis. Some data are collected at continued stay review. For Item 3.b.1, the data were based on results reported in Tables 14A and 17.

4 State Mental Health Agency Responsibilities

a. Medicaid: Does the State Mental Health Agency have any of the following responsibilities for mental health services provided through Medicaid? (Check All that Apply)

None apply in Nebraska

1. State Medicaid Operating Agency
2. Setting Standards
3. Quality Improvement/Program Compliance
4. Resolving Consumer Complaints
5. Licensing
6. Sanctions
7. Other

☐

☐
☐
☐
☐

Data Reporting: Please describe the extent to which your information systems allows the generation of unduplicated client counts between different parts of your mental health system. Please respond in particular for Table 2, which requires unduplicated counts of clients served across your entire mental health system.

Are the data reporting in the tables?

Unduplicated :counted once even if they were served in both State hospitals and community

- 5.a. programs and if they were served in community mental health agencies responsible for different geographic or programmatic areas.
- 5.b. **Duplicated**: across state hospital and community programs
- 5.c. **Duplicated**: within community programs
- 5.d. **Duplicated**: Between Child and Adult Agencies

☒
☐
☐
☐

Plans for Unduplication: If you are not currently able to provide unduplicated client counts

- 5.e. across all parts of your mental health system, please describe your plans to get unduplicated client counts by the end of your Data Infrastructure Grant.

Table 14A. Profile of Persons with SMI/SED served by Age, Gender and Race/Ethnicity

This is a developmental table similar to Table 2.A and 2.B. This table requests counts for persons with SMI or SED using the definitions provided by the CMHS. Table 2.A and 2.B included all clients served by publicly operated or funded programs. This table counts only clients who meet the CMHS definition of SMI or SED. For many states, this table may be the same as Tables 2.A and 2.B. For 2003, states should report using the Federal Definitions of SMI and SED if they can report them, if not, please report using your state's definitions of SMI and SED and provide information below describing your state's definition.

Please enter the "total" in the appropriate row and column and report the data under the categories listed.

Diagnoses included in state SED definition: (See Below)

NE definition for Adults with SMI

Title 204 -- Regulations for Community Mental Health Programs; Chapter 1 – Definitions, 001.33 Persons Disabled By Severe and Persistent Mental Illness:

- (a) the individual is age 18 and over;
- (b) has a primary diagnosis of schizophrenia, major affective disorders, or other major mental illness under the current edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association. Developmental Disorders, or Psychoactive Substance Use Disorders may be included if they co-occur with the primary mental illnesses listed above; Diagnosis # 295 - 298.9 [Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Text Revision (DSM-IV-TR) © 2000 American Psychiatric Association. Schizophrenia (295), Mood Disorders including Bipolar and Major Depression (296), Delusional Disorder (297.1), Shared Psychotic Disorder (297.3), Brief Psychotic Disorder (298.8), and Psychotic Disorder NOS (298.9) ["Not Otherwise Specified"].
- (c) are at significant risk of continuing in a pattern of either institutionalization or living in a severely dysfunctional way if needed mental health services are not provided, and this pattern has existed for 12 months or longer or is likely to endure for 12 months or longer; and
- (d) degree of limitation that seriously interferes with the individual's ability to function independently in an appropriate and effective manner, as demonstrated by:
 - (1) Vocational/Educational,
 - (2) Social Skills, or
 - (3) Activities of Daily Living.

NE definition for Children with SED

Title 204 -- Regulations for Community Mental Health Programs; CHAPTER 1 –DEFINITIONS, 001.07 CHILD OR ADOLESCENT WHO HAS A SEVERE EMOTIONAL DISTURBANCE:

- (a) the youth's age must range from birth up to age 18, however, for purpose of transition into adult services, the youth may be age 18 to 20;
- (b) the youth must have a mental illness diagnosable under the current edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association,
- (c) the condition must be persistent in that it has existed for one year or longer, or is likely to endure for one year or longer; and
- (d) the mental illness must result in functional impairments in TWO or more of the following areas:
 - (i) self-care at an appropriate developmental level,
 - (ii) developmentally appropriate perception and expressive language,
 - (iii) learning,
 - (iv) self-direction, including developmentally appropriate behavioral controls, decision-making, judgment, and value systems, and
 - (v) capacity for living in a family or family equivalent.

Comments on Data:

* Hispanic: Only use the "Hispanic" row under Race if data for Hispanic as a Ethnic Origin are not available

Optional Table - To be developed by the Living Situation WorkGroup. We are currently discussing the methodology for collecting and reporting Living Situation data as an outcome measure.

Living Situation Definitions :

Private Residence: Individual lives in a house, apartment, trailer, hotel, dorm, barrack, and/or Single Room Occupancy (SRO).

Foster Home: Individual resides in a Foster Home. A Foster Home is a home that is licensed by a County or State Department to provide foster care to children, adolescents, and/or adults. This includes Therapeutic Foster Care Facilities. Therapeutic Foster Care is a service that provides treatment for troubled children within private homes of trained families.

Residential Care: Individual resides in a residential care facility. This level of care may include a Group Home, Therapeutic Group Home, Board and Care, Residential Treatment, or Rehabilitation Center, or Agency-operated residential care facilities.

Crisis Residence: A residential (24 hours/day) stabilization program that delivers services for acute symptom reduction and restores clients to a pre-crisis level of functioning. These programs are time limited for persons until they achieve stabilization. Crisis residences serve persons experiencing rapid or sudden deterioration of social and personal conditions such that they are clinically at risk of hospitalization but may be treated in this alternative setting.

Children's Residential Treatment Facility: Children and Youth Residential Treatment Facilities (RTF's) provide fully-integrated mental health treatment services to seriously emotionally disturbed children and youth. An organization, not licensed as a psychiatric hospital, whose primary purpose is the provision of individually planned programs of mental health treatment services in conjunction with residential care for children and youth. The services are provided in facilities which are certified by state or federal agencies or through a national accrediting agency.

Institutional Setting: Individual resides in an institutional care facility with care provided on a 24 hour, 7 day a week basis. This level of care may include a Skilled Nursing/Intermediate Care Facility, Nursing Homes, Institutes of Mental Disease (IMD), Inpatient Psychiatric Hospital, Psychiatric Health Facility (PHF), Veterans Affairs Hospital, or State Hospital.

Jail/ Correctional Facility: Individual resides in a Jail and/or Correctional facility with care provided on a 24 hour, 7 day a week basis. This level of care may include a Jail, Correctional Facility, Detention Centers, Prison, Youth Authority Facility, Juvenile Hall, Boot Camp, or Boys Ranch.

Homeless: A person is considered homeless if he/she lacks a fixed, regular, and adequate nighttime residence and/or his/her primary nighttime residency is:

- A) A supervised publicly or privately operated shelter designed to provide temporary living accommodations,
- B) An institution that provides a temporary residence for individuals intended to be institutionalized, or

C) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings (e.g., on the street).

Unavailable: Information on an individual's residence is not available.
